Couteau - Resolza 10

Prix de vente (TTC): 189,00 CHF

Description:

RESOLZA is an ancient name, reminiscent of the Italian word for razor. The centuries old Sardinian “resolza” one of the best-known traditional knives in our country – to this day it’s been the constant companion to island farmers and shepherds in their everyday work. It followed them even when they were called to war: chronicles of the Sassari Brigade during World War I mention the knife as part of the troopers’ equipment. Our attempt to revisit this traditional design according to our own standards is meant as a tribute, not to disregard Sardinian craftsmen still practicing the old ways of knife-making and keeping ancestral traditions alive. This RESOLZA retains original measurements and proportions, with a 3,9” blade, but is produced with the usual Extrema Ratio high-end materials and technologies. The handle was redesigned, while the blade more faithfully approaches a traditional shape. As an improvement on tradition, we added a blade-locking mechanism. Available versions: RESOLZA 10 BLACK, RESOLZA 10 STONE WASHED.
